Please note: All units include internal shelving behind sliding whiteboards

# align front of class unit - 2400 wide.

assembly instructions.

You have received three packages, including:

1 x Front of
Class Unit Base

1 x Front of
Class Unit Top

2 x Front of
Class Unit Sides

12 x Surefix Screws - Square
24 x Titus Hilo Screws - Phillips

24 x Cover
Caps

You will need:

Impact Driver
SQZ Driver bit ▫
Pozi Driver Bit ✛

Please note: If you have ordered multiple Front of Class Units, all three packages for the same unit will be identified with the same letter, (e.g. Unit A). Wall fixing hardware not included.

Step 1

Use multiple people to lift the Front of Class Unit Base to its final location. We recommend the unit is fixed to a wall for safety reasons.

Step 2

Use multiple people to lift the Front of Class Unit Top onto the Base, ensuring the sides and back of the Base and Top are flush and aligned.

Step 3

Fasten the Unit Top to the Unit Base by inserting the provided Surefix screws into the pre-drilled holes in the underside of the Unit Base rails and tightening.
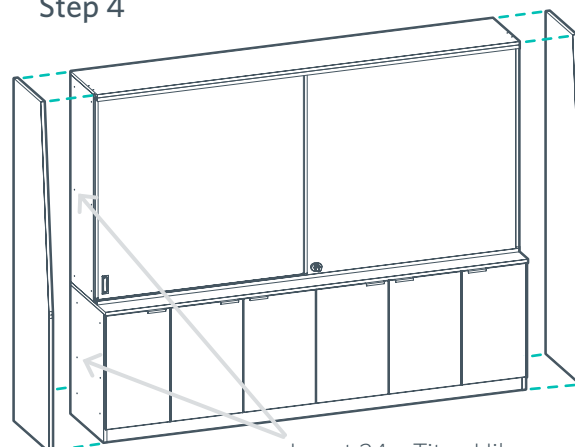

Step 4

Fasten the Unit Sides to the pre-assembled Base and Top by inserting the Titus Hilo screws provided into the pre-drilled holes in the sides of each unit and fastening. Cover screw heads with the Cover Caps provided.

Steps 2 & 3
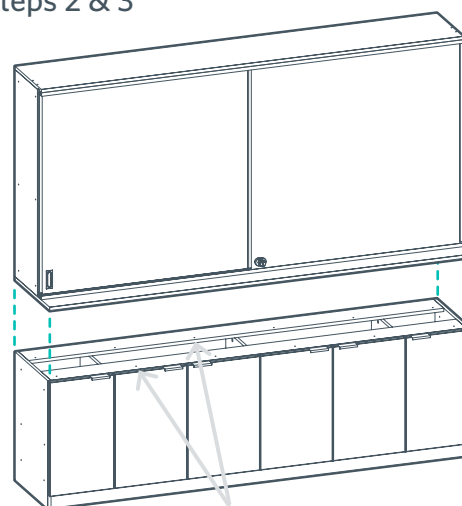

Insert 12 x Surefix screws
in front and back rails

Step 4

Insert 24 x Titus Hilo
screws in both sides of
the Unit Base and Top

align front of class unit - 3600 wide.

assembly instructions.

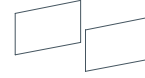

You have received eight packages, including:

2 x Front of Class Unit Bases (A and B)
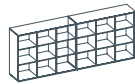

2 x Front of Class Unit Tops (A and B)

2 x Front of Class Unit Sides

2 x Whiteboard Doors

You will need:

Impact Driver
SQZ Driver bit ▫
Pozi Driver Bit ✛

Top   Bottom

1 x Top Aluminium track
2 x Bottom Aluminium tracks
4 x "L" Brackets
(screwed into bottom track)

20 x Surefix Screws - Square
36 x Titus Hilo Screws - Phillips
40 x Whiteboard Screws - Square

36 x Cover Caps

Please note: If you have ordered multiple Front of Class Units, all eight packages for the same unit will be identified with the same letter, (e.g. Unit A). Wall fixing hardware not included.

Step 1

Position Front of Class Unit Bases A and B into their final location and fasten together with Titus Hilo screws, using pre-drilled holes.
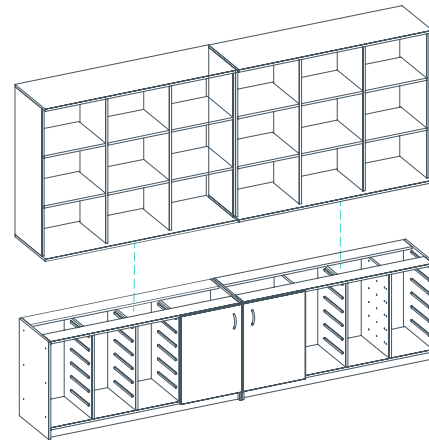

Tip: Fix Front of Class Unit Bases to wall prior to step 2.
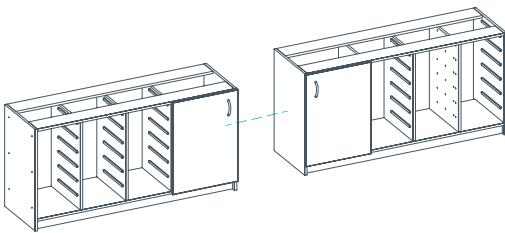

Step 2

Place Unit Tops A and B on top of the Unit Base, ensuring sides and back are aligned. Fasten together by screwing through the top of the Unit Base with Surefix screws, using pre-drilled holes.

Tip: Fix Front of Class Unit Tops to wall prior to step 3.

## Step 3

Screw aluminium track into place with Whiteboard screws, using pre-drilled holes (highlighted red items in drawing).
Slide Whiteboard Doors onto tracks, ensuring lockable door is at the front.
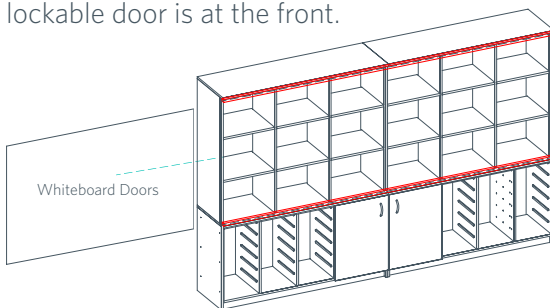

Whiteboard Doors

Step 4

Once Whiteboard Doors are in place, screw on both Unit Sides using pre-drilled holes with 24 x Titus Hilo Screws. Cover screw heads with Cover Caps.
